JavaScript Tooling / Environment: npm, pnpm, Vite, VS Code, Android Studio

Professional Experience

Association for Computing Machinery | New York, NY (Remote)

Web Developer (Part-time, Contract) • *January 2019 - June 2019; June 2020 - September 2020*

- Maintained and enhanced a production web application built on Laravel/Homestead and Craft CMS.
- Implemented UI and admin-side updates using Twig/HTML templates, CSS3, JavaScript, PHP, and SQL.

Volunteer Experience

St. Joseph Catholic Church | Salida, CO (Remote)

Web Developer • *May 2026 – Present*

- Collaborating with parish staff to identify improvements and implement updates to the church website.

Wonderland Running | Portland, OR

Web Developer • *April 2019 - June 2019*

- Collaborated with the client to design a website to showcase multiple running events, providing event registration, course details, and fee information.

Projects

- **Open Source Contributions, freeCodeCamp | November 2025 - Present**
 - Fixed errors in curriculum content, updated lab ordering, and improved multiple-choice questions.
 - Incorporated reviewer feedback, opened new issues, and contributed improvements to a website used by millions of developers.
- **Portland Art Supply**
 - Designed a nine-table relational database and implemented multi-JOIN queries for dynamic product options.
 - Built AJAX-driven cart updates and persisted shopping carts using database-backed PHP sessions.
- **Haunted House**
 - Developed a text-based adventure game using OOP with clear API, service, and game engine layers.
 - Refactored so the same Java backend that powers the CLI could be used for a new web interface.
 - Created a web-terminal UI from scratch that uses a Spring Boot REST API to expose JSON endpoints for the game engine.
- **World War II Soldier Surveys**
 - Parsed National Archive CSV data using JavaScript and modernized the app from class to functional components.
 - Built an SPA with React Router and a CSS Grid layout for survey topics and response.

Certifications

- freeCodeCamp | Responsive Web Design Developer Certification (300 hrs) | January 2026

Education

Portland Community College – Portland, OR

Associate of Applied Science Degree, Web Development and Design, graduated 2019, Highest Honors (GPA: 4.0)
